OBJECTIVE

Motivated Python Full Stack Developer with hands-on experience in Python, Django/Flask, REST APIs, SQL, HTML, CSS, JavaScript, and ReactJS. Seeking opportunities to build scalable and user-friendly web applications, contribute to real-world projects, and apply strong problem-solving skills while continuously learning and growing in a collaborative development environment.

EDUCATION

B.Tech in Computer Science, Parul Institute Of Engineering and Technology, Vadodara — **2022 - 2026**
CGPA: 7.41/10 — Gujarat, India

Intermediate (MPC), Narayana Junior College — **2020 - 2022**
Percentage: 94% — Telangana, India

SKILLS

Programming Languages	Python, HTML, CSS, JavaScript
Frameworks/Libraries	Bootstrap, Django, NumPy, Pandas, Tkinter
Databases	MySQL, SQLite
Developer Tools	Git/Github, Google Colab, VS Code
Academic Coursework	Data Structures, Operating Systems (Windows, Unix/Linux), CN, OOP, DBMS
Certifications	HTML, CSS, JavaScript (CodSoft) | Python, OOPs (RF Skilling Academy) (Cisco)

EXPERIENCE

Navodita Infotech | Front-End Development Intern | Remote — **August 2025 - Sept 2025**

- Developed a "Finance Hub", a comprehensive web-based finance management platform using HTML, CSS, and JavaScript, designed to provide users with an efficient and user-friendly financial management experience.
- Applied problem-solving, logical thinking, teamwork, communication, and project management skills throughout the development process, contributing to the successful completion of the project and strengthening my technical and professional skills. (Project Link)

CodSoft | Web Development Intern | Remote — **Feb 2025 - March 2025**

- Developed a responsive Portfolio Website using HTML and CSS, showcasing personal information, technical skills, projects, achievements, and contact details in a professional and organized manner.
- Strengthened skills in web development, responsive design, problem-solving, creativity, and project management while developing and refining the portfolio website. (Project Link)

PROJECTS

FloShop Online Flower Store : Developed a fully responsive web application leveraging HTML, CSS, and JavaScript. Integrated the News API for dynamic, real-time content updates and implemented advanced search functionality. Focused on delivering an optimized user experience with intuitive design and seamless navigation. (Project Link)

Guessing Game: Developed a Guessing Game using Python, featuring interactive gameplay where users attempt to guess a randomly generated number with real-time feedback. Implemented user input handling, random number generation, and attempt tracking to create an engaging and user-friendly gaming experience, with potential for future enhancements such as difficulty levels, scoring systems, and limited attempts. (Project Link)

Calculator: Developed a functional Calculator application using HTML, CSS, and JavaScript, featuring a clean and user-friendly interface for performing basic arithmetic operations. Implemented interactive buttons, real-time input handling, and dynamic calculation functionality using JavaScript, with potential for future enhancements such as advanced mathematical operations and improved responsive design.
